

The Leader in Premium Audit and Loss Control Automation.

It is time once again for the annual AMS Users' Conference. This year we have scheduled the dates of September 14 - 16, so mark your calendars accordingly.

Before we finalize the agenda, we would like your feedback as to which topics on the right you would find most interesting. Please rate them from 1 (most interested) to 5 (least interested). Please feel free to include any topics not listed.

Also, we would like to know if you would be interested in participating in (or even facilitating) roundtable discussion sessions on a given topic.

The Users' Conference is designed to benefit YOU! Your feedback and ideas will insure that this year's conference does just that.

Please respond to :
AMSCONFERENCE2003@ADVMGMT.COM

By June 27, 2003 with your ideas and a list of attendees from your company.
