### FEATURES:

- ✓ Allows for auditor inventory management
- ✓ Provides a policy/claims viewer
- ✓ Customizable forms system
- ✓ Transmittal of audits, progress reports and schedule dates
- ✓ Extensive diagnostics, logging and support
- ✓ Download/Upload system to ACE and or Audit Partner
- ✓ Built-in backup and recovery system
- ✓ Printable itineraries
- ✓ Automatic audit summarization through Active Worksheet
- ✓ Ability to import existing templates
- ✓ Audits may be performed in either a structured, open, or templated approach

AuditWin is a spreadsheet based worksheet, utilizing templates, open, and active worksheets. The active worksheet is user friendly, allowing the automatic generation of worksheet summarization based upon the entry of related information into the detail sheet. Exposures and verification amounts are automatically linked. Active Worksheet also summarizes the audit and automatically produces an entire summarized worksheet output.
